Frequently asked questions

What is I am J Corporation?

I am J Corporation is a Palo Alto, California technology company developing human-centered artificial intelligence for individuals, organizations, and communities.

What is currently available?

The I am J consumer platform is in production and available through the Apple App Store in 125 countries. It supports 21 languages.

What does the consumer platform include?

The platform combines conversational intelligence, navigation, guided tours, local exploration, visual understanding, and safety-oriented assistance through AI Prodigy, Pathfinder, Guided Tours, Explorer, Sight & Tell, and SOS.

What is Spark Nexus?

Spark Nexus is the enterprise platform under development. It is designed as deployable AI knowledge infrastructure for institutional, education, humanitarian, enterprise, public-service, and remote settings.

What are NOMAD and GRID?

NOMAD is the planned portable deployment model for field and temporary use. GRID is the planned permanent deployment model for institutions and community facilities.

Does I am J provide emergency services?

No. SOS provides informational guidance and can support user-configured emergency-contact notifications where available. It is not a replacement for professional emergency services, and users should contact the appropriate local emergency number in an emergency.

How does the company approach responsible AI?

The company publishes public commitments covering human-centered design, oversight, transparency, accountability, privacy, security, accessibility, safeguarding, and responsible deployment.

Is the enterprise platform commercially available?

Spark Nexus is under development. Public descriptions should not characterize it as generally available unless I am J Corporation announces a change in status.

Where can journalists find official information?

The I am J Media Center provides press releases, company documents, executive resources, product materials, visual assets, and media contact information. The Innovation Center provides broader technology, architecture, governance, impact, and deployment information.

Who should journalists contact?

Media and corporate inquiries may be directed to corporate@iamj.ai or through the corporate contact form in the Innovation Center.
